Though those who have taken a large number of votes in the Queen Contest of the Eagles' Carnival have not deposited them in the several boxes placed for that purpose the interest in the affair is growing daily. By the end of the week the contest is expected to grow much warmer than at present.

The ballot boxes are still at the three establishments noted in yesterday morning's Review.

The merchants who now handle Eagles' contest votes are being augmented in number and now the list includes many from Johnson Addition and Lowell as well as Bisbee. The complete list follows:

Y. M. C. A. BOYS TO ENJOY FIRST HIKE OF SPRING SEASON

Boys' Secretary Carter Will Leads Lads Through Neighboring Mountains; Boys' Building Notes.

On Saturday morning, starting at 8 o'clock, from the Y. M. C. A. building, the boys of the Warren district will have their first hike of the near spring season. The hike is to be personally conducted by the Boys' Secretary I. R. Carter, assisted by Ralph Owens, Assistant Boy's Secretary.

New points of interest in the near-by mountains will be visited and the trip gives promise of being of unusual interest and benefit.

Each boy should prepare for the hike by dressing in a comfortably hiking outfit and providing himself with a hearty lunch. The new boy's building is rapidly nearing completion and the boys of the district are anxiously awaiting the arrival of the opening day, Sunday, March 12. The boys will then again have access to the swimming pool and gymnasium. In addition, the fine large lobby of the new Boy's building will provide such additional recreation as pocket billiards, shuffle boards, baseball games and many interesting parlor games such as chess, checkers and many of the popular card games.

Every boy is urged to be on hand Saturday as the plans for the summer activities will be up for discussion. All are to have a voice in the planning of the summer camps, hikes, swimming classes and many other things of great interest to the boy. Each boy is to be permitted to bring all his friends and be on hand, fully equipped and prepared, at eight a. m. sharp.

Order your spring suit now before all pretty patterns are sold out.

HOUSE FLY DANGER IS AWFUL MENACE

Bisbee Woman Tells of Menace to Health from Dangerous Household Pest.

"The House Fly" is the subject of a dissertation by a Bisbee woman who is vitally interested in the "Clean Up" movement. The article is published below, in the hope that it may prove an incentive to a vigorous conduct of the "Clean Up Day" activities.

Don't forget the fly on Clean Up Day for they are the most dangerous and filthiest of all vermin. More than 90 per cent of them are bred in horse manure. When this is not available the eggs are laid in other filth such as fermenting garbage, old straw bedding and rags.

Flies are known to be carriers of millions of death dealing disease germs. They come to our kitchen from manure piles, garbage, cuspids, decaying animal or vegetable matter and contagious sick rooms with this filth on their feet and in their bodies and deposit it on our food. They may infect us with tuberculosis, typhoid fever, scarlet fever, diphtheria, dysentery and other contagious diseases. What then shall we do? First, get rid of the breeding places and destroy the eggs before they are hatched. Tests made recently by the Department of Agriculture in Washington prove that the best fly egg destroyer is borax, which will prevent flies from hatching in manure and yet not impair its fertilizing value.

This department gives the following directions for applying borax as a fly egg destroyer: "Apply through a fine sieve or flour sifter two ounces of borax to a can of garbage daily; apply ten ounces in the same way to eight bushels of fresh manure and sprinkle with water." Borax should also be applied to floors and crevices in barns, markets, street sweepings and to such places in the homes as are likely to be chosen as flies to lay their eggs. Watch the drains; keep sewerage in

Bargain Booth Sale of Traveling Men's S-A-M-P-L-E-S

—We could say a whole lot about these garments, we could throw bouquets at ourselves for the manner in which we acquired them, but we are going to let you supply the enthusiasm when you see them. We'll merely say that they were purchased under circumstances by which we are able to sell them at about one-third less than such underwear would be regularly marked and that you owe it to yourself to come and at least look. The rest will take care of itself.

Samples include combinations, princess slips, corset covers, drawers, petticoats, gowns and envelope chemises. Accurately cut and tastefully trimmed elaborate embroideries, fine laces and ribbons.

good condition; repair all leaks immediately; clean cuspidors; destroy candle boxes used as such; allow no decaying matter of any sort on or near our premises. Don't wait until the flies come, but begin now. To allow a creature born in filth and swarming with disease germs to live unmolested is surely a crime.

First shipment of Irish potatoes to West Indies by way of Boston occurred Thursday when United Fruit steamship San Jose left this port with 6000 bags.

Mexican advices state permission will be granted for the exportation of cattle hides from that country up to end of March and after that date such exports positively will be prohibited. Exports from India will also be allowed to end of March after which permission must be obtained from the British government. These regulations together with scarcity of ocean freights are bullish factors in the market for foreign hides.

The British took 1285 parcels of raw rubber from first-class mail of the Dutch steamer Hollandia, Buenos Ayres to Amsterdam and 1390 parcels from Dutch steamer Gelria.
